# Speech And Language!

## Speech = Sounds! Can you say it clearly and smoothly?

 Making sounds (articulation)

• Talking without

• getting stuck (fluency)

#### Language = Meaning! Can you understand and share ideas?

- Understanding words
  - (receptive)
- Putting words together

### They work together... but aren't the same!

You can say words clearly but not understand them or

Understand everything but have trouble saying it.

- (expressive)
- Using words in the right

way (social use)

#### Do you need help?

Speech-Language Pathologists are here to help with both speech and language challenges!
